

What are the annual reporting requirements and how to submit them?

Annual Reports are mandatory

The completion and submission of an annual report are mandatory for all projects as a condition of ethical approval and governance authorisation. Failure to submit a satisfactory annual report will result in the withdrawal of HREC approval and/or governance authorisation, leading to **study suspension**. As a result, all study activities must be halted until the approval is reinstated following the submission and approval of a satisfactory annual report.

The annual report is due 1 May annually. Starting in 2025, the annual progress report cannot be submitted before 1 May to ensure continuous reporting with no gaps between reports, maintaining data completeness and accuracy.

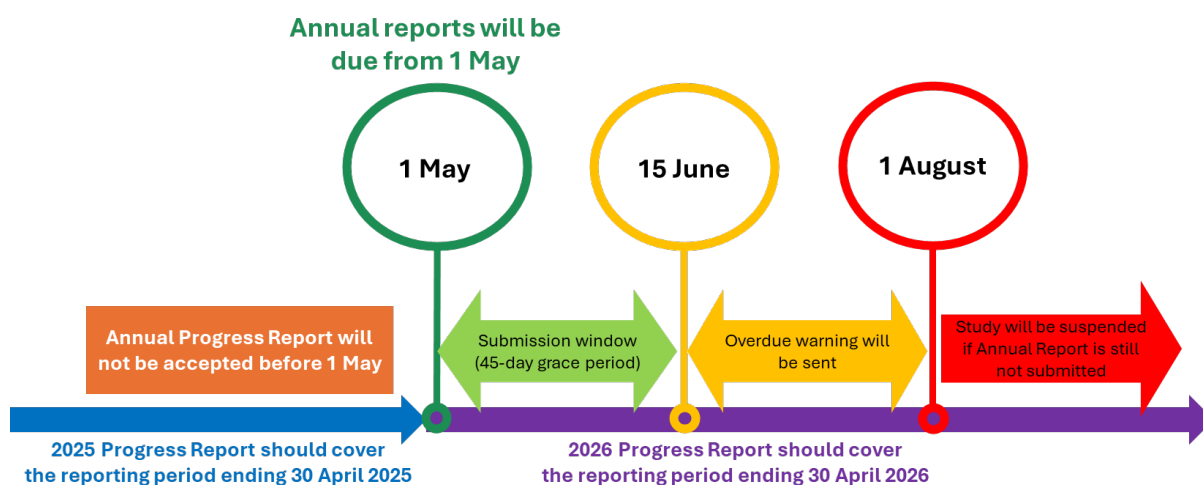

All annual reports must be submitted via [SAGE](#).

For any questions related to annual reports, please contact Research Integrity and Compliance Team on 03 9231 6972 or email svhm.ResearchAnnualR@svha.org.au

Submission timeline

The submission deadline is May 1st annually, starting from the following year of the approval date until the project completion.

Note: Starting in 2025, Annual Progress Reports cannot be submitted before 1 May. The submission button on SAGE will be disabled if you attempt to submit a progress report form before 1 May.

Submission of final reports is required to inform the HREC about the completion or abandonment of a project.

Failure to submit progress reports within 45 days after the 01 May deadline may result in the study suspension.

Acknowledgement of a submitted annual progress report will generally be provided within 2 months of report submission - this timeline may be extended due to the significant volume of reports received.

Reporting level and submission responsibilities

All Annual Reports and Final Reports are to be submitted under the relevant projects on SAGE, see how to [locate your annual report forms](#).

1. **Progress/Final Report (HREC Form)** - Can only be submitted by the CPI or Sponsor on SAGE.
2. **Site Report/Closure Form (RGO Form)** - Can only be submitted by the site PI on SAGE.
3. **External Site Closure Form (HREC Form)** - Can only be submitted by the CPI or Sponsor on SAGE.

Different report forms are required depending on the project types. Please refer to the following table for what report types are required for your project, and whose responsibility it is to submit.

Project Types	Report Form Required	Whose Responsibility to submit
Ethics only project <i>Study reviewed by SVHM HREC, but no SVHM site is involved in the study</i>	Progress/Final Report (HREC Form at the SVH project level)	<ul style="list-style-type: none"> The CPI for an investigator-initiated study; A sponsor representative for commercially-sponsor study
Governance only project <i>Study reviewed by an external HREC, SVHM as participating site</i>	Site Report/Closure Form (RGO Form at the SSA project level)	The site Principal Investigator must submit the site report.
Both Ethics and Governance project (Single-Site Study) <i>where SVHM is both the HREC and the only participating site</i>	Site Report/Closure Form only (RGO Form at the SSA project level)	The site Principal Investigator must submit the site report.
Both Ethics and Governance project (Multisite Study) <i>where SVHM is the HREC and one of the participating sites</i>	Both HREC and RGO report forms are required (at both SVH and SSA project levels)	HREC Report: <ul style="list-style-type: none"> The CPI for an investigator-initiated study; A sponsor representative for commercially-sponsor study RGO Report: PI only
Ethics project with a closure of an external site <i>Closure of a non-SVHM RGO site approved under SVHM HREC</i>	External Site Closure Form (at the SVH project level)	<ul style="list-style-type: none"> The CPI for an investigator-initiated study; A sponsor representative for commercially-sponsor study

If you believe you should have submission access but are unable to submit the form, please contact research.directorate@svha.org.au.

Study statuses will determine whether it is a progress or a final report

Depending on the study status, a progress report or a completion report will be generated automatically. This is managed within the report form.

Study statuses within the HREC Form

Selecting one of these statuses will generate an **HREC Progress Report**, indicating that the study is ongoing at one or more participating sites and that a future report is expected:

- **Not Yet Commenced:** No clinical activities involving participants (including recruitment) have started.
- **In Progress:** Clinical or study activities have commenced.

Study Status

In progress

i Based on your above response, a Project **Progress Report** will be generated and submitted at the completion of this form.

Selecting one of these statuses will generate an **HREC Final Report**, indicating that the study has been *completed across all participating sites* and that no future reports will be submitted for this project:

- **Closed (post analysis)** – The study has finished normally; participants are no longer being treated or examined. The database is locked, and data analysis is complete.
- **Abandoned** – The application was approved/authorised, but the project will never commence.

Terminated – The study started but was discontinued by the investigator or sponsor before study completion. Activity will not resume. Possible reasons include ethical, safety, financial, or other grounds. This study will never progress to "Complete" or "Closed (post analysis)".

i Based on your above response, a Project **Final Report** will be generated and submitted at the completion of this form.

Study statuses within the RGO Form

Selecting one of these statuses will generate a Site Progress Report, indicating that the study is ongoing at the site and that a future report is expected:

- **Not Yet Commenced** - No clinical activities involving participants (including recruitment) have started.
- **Continuing** – Clinical or study activities have commenced.

Continuing

i Based on your above response, a **Site Progress Report (RGO)** will be generated and submitted at the completion of this form.

Selecting one of these statuses will create a **Site Closure Report** - study has completed no future reports will be submitted:

- **Completed**: Completion of a study or data analysis at this site.
- **Abandoned**: The application has been approved/authorised, but it has been determined that the project will never commence.
