

Hepatitis C Bloody Serious Facts

**Educational Training
for Healthcare
Professionals**

St Vincent’s Hospital Melbourne and Harm Reduction Victoria have partnered to provide interactive education workshops on hepatitis C. Join us as we delve into the diagnosis, treatments and impacts of living with this virus. Learn how to make a difference, increase awareness and explore strategies to engage and support clients into health care.

These workshops are delivered by a highly experienced harm reduction worker from Harm Reduction Victoria and a viral hepatitis nurse consultant from St Vincent’s Hospital. Choose from an in-person event with opportunities to network, or join us online.

WHAT THE COURSE PROVIDES

Diagnosis

Increase your understanding of transmission, testing and diagnosis of hepatitis C

Treatments

Learn about the anti-viral medications that are changing people’s lives

Impacts

Gain an insight into living with hepatitis C and the treatment journey by a person with lived experience

Risks

Watch a practical demonstration of the risks of transmission during the mixing up and injecting process
