

## 1. THE ORGANISATION AND OUR MISSION

St Vincent's Hospital Melbourne (SVHM) is a leading teaching, research and tertiary health service, which employs more than 7,500 staff across 18 sites throughout Melbourne.

Part of Australia's largest not-for-profit Catholic health and aged care network, St Vincent's Health Australia, SVHM provides a diverse range of adult clinical services including acute medical and surgical services, sub-acute care, medical diagnostics, rehabilitation, allied health, mental health, palliative care, correctional health and community residential care.

SVHM's mission is to provide high quality and efficient health services to the people of Victoria in accordance with the philosophy of St Vincent's Health Australia. This mission is based on the values of compassion, justice, integrity and excellence.

- Demonstrates good working relationships with other team members and colleagues.
- Commitment to the Hospital Code of Conduct.
- Commitment to continuous quality improvement.
- Teaching commitment and skills in undergraduate, postgraduate and continuing medical education.
- Ongoing involvement with and encouragement of research.

## 9. REQUIRED IMMUNISATIONS

SVHM Employee Health Screening and Immunisation Policy outlines the requirements for staff working in SVHM facilities.

**Table 1: Vaccine Preventable Diseases for which vaccination and/or assessment is required within SVHM**

|   |  |
|---|--|
| Chicken pox (varicella)<br>Hepatitis B<br>Measles<br>Mumps<br>Rubella | Whooping cough (pertussis)<br>Diphtheria<br>Tetanus<br>Influenza<br>Tuberculosis<br>COVID-19 |
|---|--|

*NOTE: Vaccination requirements may differ according to individual jurisdictional requirements and policy directives and where there is a conflict the higher directive will apply.*

SVHM has grouped individuals according to their risk of transmitting vaccine preventable diseases and their risk of exposure to blood or body substances (Table 2).

**Table 2: Health Care Worker Risk Categorisation**

| Risk Category | Description | Vaccination requirement |
|---------------|-------------|-------------------------|
|---------------|-------------|-------------------------|

|            |   |             |
|------------|---|-------------|
| Category A | Vaccination is <b>required</b> for this category of health care worker. Healthcare workers within this category have the potential to transmit Vaccine Preventable Diseases to vulnerable patients most at risk of mortality and morbidity from these diseases within SVHM.<br>This includes employees with direct physical contact with patients/clients, deceased persons, blood, body substances or infectious material or surfaces/equipment that might contain these or contact that would allow acquisition and/or transmission of a specific infectious disease by respiratory means.<br>This includes laboratory workers. | Required    |
| Category B | Vaccination is recommended for this category of HCW. This includes individuals who do not work with the risk of exposure to blood or body substances, their normal work location is not in a clinical area (e.g. chef, administrative staff) and only attends the clinical area for short periods of time. Essentially, these individuals have no greater level of risk than that of the general community.   | Recommended |

## 10. PRE-EXISTING INJURY

Prior to any person being appointed to this position it will be required that they disclose full details of any pre-existing injuries or disease that might be affected by employment in this position.

## 11. AGREEMENT

### National Police Check:

I understand that it is a condition of my employment to provide SVHM with a current National Police Certificate PRIOR TO COMMENCING WORK and this is at my own cost.

I understand that regardless of the frequency, if I am working and or visiting in a designated 'high risk area' of SVHM (as defined in the SVHA Pre-employment/Appointment Safety Checks Policy) I will be subject to periodic Police Checks every three years at my own cost.

### NDIS Clearance (if applicable):

If you are working in a designated 'Risk Assessed Role' (as defined by the National Disability Insurance Scheme NDIS) regardless of frequency, you will be subject to periodic NDIS Worker Screening Checks every five years at your own cost. 'Risk Assessed Roles' are defined as (a) key personnel as defined in the *National Disability Insurance Scheme Act 2013*; (b) any role that directly delivers a set of specified supports or services in the [NDIS \(Practice Standards – Worker Screening\) Rules 2018](#); (c) any role where normal duties are likely to require 'more than incidental contact' with people with disability. The designation of 'Risk Assessed Roles' are subject to change, please refer to NDIS Practice Standards for further information.

### Required Immunisations:

Individuals who will be working in Category A positions will only be able to commence employment following assessment of their vaccination status. The decision to proceed with the commencement of employment will be at the discretion of the ICP in consultation with the Hiring Manager and may in some instances, require additional vaccinations to ensure full compliance with the SVHM Employee Health Screening and Immunisation Policy.

I understand that if additional vaccinations are required to comply with pre-employment prerequisites, this will be at my own cost. Where a state jurisdiction overrides this, the facility will bear the cost.

**I have read, understood and agree to comply with the responsibilities and accountabilities of this position description. I agree to comply with all SVHM requirements, policies, procedures, by laws and directions.**
