

Future Directions 2018

Like any future planning process we would like to be guided by what is a priority for you and what's going to assist you to work most effectively in the Dual Diagnosis space. The survey we sent out with this email has a link that will help shape what we do in 2018 – please fill it in and help us to get the right focus for your needs in 2018.

Our predominate focus will be -

- **Engagement and Dual Diagnosis Specific interventions** – Before During After Harm Reduction Package (BDA), Reasons for Use Package (RFUP); Motivational Interviewing
- **Dual Diagnosis Service & System Change** – Dual Diagnosis capability Auditing; Review screening and assessment processes; Dual Diagnosis practice guidelines; Integrated treatment frameworks; Dual Diagnosis induction for new staff etc.
- **Training and Education needs** – blended online and face-to-face programs for GP's state wide and psychiatry registrars
- **Nexus Stakeholders** – As always, we will continue to engage with all of our stakeholders in relation to their dual diagnosis workforce development needs!
