

2022 Nexus Training Calendar

Date	Time	Name and Description	Category and Cost	Registrations
Wednesday 19 October 2022 (live session)	9.30am - 4.30pm	Working with Trauma, Mental Health and Substance Use/Addiction	Blended Training:	
		An introductory level training, it Includes three on-line modules released Monday 3 October and a full day live (face-to-screen - F2S) session. It is an interactive and practical professional development designed to assist clinicians understanding of clients who experience mental health and substance use/addiction issues and the impact of experiences of childhood and/or other past or current trauma(s) on their health, wellbeing, daily interactions and functioning.	Three online modules and one live zoom session \$75 per person	Registrations close 30 September
Wednesday 19 October & Wednesday 26 October 2022 (live sessions)	10.00am - 12.00pm	Mental Health and AOD: Essentials of Practice Includes co-facilitated session with people of lived experience	Blended Training:	
		This training is an introduction to the key principles of working with clients who experience mental health and substance use/addiction issues.	Three online modules and two live zoom sessions \$20 per person	Registrations close 30 September
Thursday 28 July 2022	10.30am - 11.30am	Motivational Interviewing: The Benefits of MI in Mental Health and Alcohol and Other Drug Practice	Information Session:	
		Kevan Myers from Nexus Dual Diagnosis Consultation Service and Steve West from Eastern Dual Diagnosis Service will draw on practice wisdom and research to explore how MI can augment and enhance practice. Kevan and Steve have collaborated for over ten years running Motivational Interviewing courses for a cross section of professional groups and settings.	Live zoom webinar Free	SOLD OUT
Thursday 30 June 2022	10.30am - 11.30am	Reasons for Use Package	Information Session:	
		The Reasons For Use Package is an evidence-based resource that supports integrated treatment. Service users and staff across mental health, housing and alcohol and other drugs services have found using the RFUP increases staff knowledge and confidence and this in turn leads to improve service user outcomes. Hear stories directly from practice.	Live zoom session Free	SOLD OUT
