### MY HEALTH RECORD (MHR)

MHR is an electronic summary of your key health information that can be shared securely online between you and registered healthcare providers involved in your care to support improved decision making and continuity of care.

You can view your health information securely online, from anywhere, at any time. You can cancel your MHR at any time or re-engage if you have opted out.

Only healthcare provider organisations involved in your care, who are registered with the MHR System Operator, are allowed by law to access your MHR. Every time a healthcare provider accesses your MHR, a log is automatically created.

St Vincent's Health Melbourne will upload our discharge summary

to MHR. If you do not want your discharge summary uploaded you can notify the patient services clerk during your stay & provided your discharge summary has not yet been dispatched, we will update your preference. If you are not a current inpatient you can go to the Government website [www.myhealthrecord.gov.au](http://www.myhealthrecord.gov.au) or call the MHR hotline on **1800 723 471** for assistance with your privacy settings.
