

Support and Educational Opportunities

At St Vincent's Hospital Melbourne you aren't just a number. We care for you... as much as you care for your patients. Our highly qualified Medical Education Team is dedicated to you and your professional development. Take advantage of our comprehensive Intern or Pre-Vocational Teaching Programs, our state of the art Simulation Lab or our specialist exam prep programs. Your education is our priority at St Vincent's Hospital Melbourne.

Need a friendly guiding hand to help you find your way? At St Vincent's Hospital Melbourne we have a mentorship program that helps you navigate the nuts and bolts of life as a junior doctor. Speak with your mentor who's been there and done that, to get the best insight and real-world advice.

Whether you need strategies to manage stress, help to navigate work-life balance or just a supportive colleague to listen, our STAR team is there to assist, 24 hours a day, 7 days a week.

We value a respectful and supportive workplace culture. Our Ethos Program will support you in speaking up when you feel workplace behaviour is below standard.

St Vincent's Hospital Melbourne is an organisation that's all about connecting with its staff and community. We value people... it's as simple as that.
