

## Mental Health Services Contacts for Referrers

St Vincent's GP Liaison Unit have been alerted to a significant number of referrals being directed to fax numbers not intended for this purpose, delaying processing and triage.

As a result we are providing a consolidated list of contacts that are likely to be most commonly used by referrers. This list of Mental Health Services complements the 'Clinic and Service Contacts for Referrers' also available on our website <https://www.svhm.org.au/health-professionals/gp-liaison>

Please cross check against your address books and templates to update where necessary.
