

# GP SKIN CANCER WORKSHOP

Saturday 9 May 2020  
Level 1, 80 Drummond St Carlton VIC

DESIGNED BY  
DERMATOLOGISTS,  
DELIVERED BY  
DERMATOLOGISTS

A highly interactive, one-day workshop on skin cancer for GPs developed and delivered by senior consultant dermatologists at the Skin Health Institute. It is hands-on, interactive and an excellent opportunity to upskill your diagnosis & management skills.

This interactive workshop will include:

- Basic dermoscopy including the identification of common benign lesions, non-melanoma skin cancer, pigmented lesions and melanoma
- Management of keratinocyte cancers (SCC, BCC, In-situ SCC, actinic keratosis)
- Management of melanoma
- Shave and punch biopsy - principles and techniques (with practical sessions)
- Elliptical excisions and primary closure - principles and techniques (with practical sessions)
